1. Dr. Fahad Alzahrani
   - Associate Professor in Umm Alqura University
   - The College of Engineering Dean, Albaha University.
   - I took two specialized courses with him and I got very good grades.
   - He can speak about my achievement in his courses and can mention that I was one of top ten students among 67 students in that course.
   - When I was working as Teaching Assistant, he was The Dean of Engineering college. I used to work with him in administrating and teaching tasks and he was very satisfied with my achievements.
   - I would list his name either as an academic or a career referee.
